

CPR ALGICIDE PLUS

NEW GENERATION COMPOUND FOR PREVENTION AND
ELIMINATION OF ALGAE IN SWIMMING POOLS

DESCRIPTION

Fast acting QUAT based liquid biocide intended with a powerful bactericidal, fungicidal and algicidal action for prevention and elimination of algae in swimming pools.

PRODUCT SPECIFICATIONS

pH @ 100%	3.5 to 4.5
Color (Visual)	Bluish Green
Appearance	Transparent Liquid
Odor	Slight
Specific Gravity	1.0 @25°C

DOSAGE GUIDELINES

Initial treatment: 2 litres for every 100 m³ of swimming pool water

Maintenance Dosage: 0.5 litres for every 100 m³ of swimming pool water every week. Initial treatment should be repeated whenever the pool is found to be not transparent. The above dosage is merely a guideline and may be modified according to the different characteristics of the pool and climate. Pour the necessary dosage in a container, mix with water and distribute evenly over the pool surface. Algicide plus should be added when there are no swimmers and preferably in the evenings.
